RIGHT TO WORK CAMPAIGN MANCHESTER

NO TORY CUTS! WE WON'T PAY

Sign the statement – protest outside the Tory Conference on 3 October

We wish to state our outright opposition to the current policy of austerity being pursued by the current coalition government. David Cameron and Nick Clegg, George Osborne and Danny Alexander, are cutting public services, forcing up the retirement age, freezing pay, targeting benefits, reducing pensions, reducing access to higher education and enforcing further privatisation in the NHS and our schools.

Far from us "all being in it together" Britain is scarred by poverty and inequality levels which are among the highest in Western Europe. In contrast the City of London and the corporate board rooms continue with their bonus culture and obscene pay and financial awards. Britain is the seventh wealthiest society in the world but has the sixth worst inequality among OECD countries

The majority will pay for the largesse of the few and for the casino economics of the 2000's.

The budget deficit is not "our" debt. It is the result of bailing out the bankers. If the money needs to be recouped there are alternatives but these are shunned in a pan-European race to deflation and austerity.

Accordingly we wish to state our support for the demonstration initiated by the Right to Work Campaign outside the Tory Party conference in Birmingham on Sunday 3 October. This has already been backed by three national trade unions (the PCS, NUJ and UCU), the Labour Representation Committee and a number of local trade union and campaigning organisations.
